

Low-Sodium Deli Chicken

Formulated with ICL functional ingredients

Expert solutions for an exceptional consumer experience.

BRIFISOL® K 1000

- Unique combination of potassium phosphates designed for reduced sodium formulas
- Can be used in injection, marination, or tumbling any muscle meat

SALONA® SEA SALT

- Natural sea salt for sodium reduction and improved nutrient profiles
- Allows for 25-50% sodium reduction

Low-Sodium Deli Chicken

Preparation instructions

Prepare brine according to the formulation. Coarse grind the meat using a kidney plate. Vacuum tumble the ground meat with the brine for a minimum of 3 hours. Vacuum stuff into casings. Cook in a steam-jacketed kettle or sous vide until an internal temperature of approximately 165°F is reached. Immediately chill in ice water after cooking, then refrigerate. Slice to desired thickness and serve.
